### woodloops – just nature!

Bloxx, pictured, is a small stool made from 400- to 600-year-old maturated oak with a stainless steel base. It measures 40cm x 40 cm x 46cm. Run by designer René Mueller and forest expert Nina Griesshammer, woodloops – just nature! has been FSC-certified since 2003, and its aim is to try and protect the environment while producing furniture.

### MK Electric

MK Electric has added a new dedicated design service to its comprehensive range of wiring devices. The service offers the opportunity to put the accent on style when it comes to switches, sockets and other wiring accessories. Through the service, customers will be able to conjure up new shapes, find the perfect finish or colour, provide additional functionality and even add in extra detailing such as logos, symbols or text.

### Melanie Graf

The concept of Sip and Snack was inspired by the observation that wine is often enjoyed with nibbles or a cigarette. The stem of the product has different containers at the bottom, which are interchangeable to suit the item they will be used to hold – so instead of having a separate plate or ashtray, Sip & Snack combines the two. The range is suitable for restaurants, garden parties or any standing events.

### Swanky Design

The D4 is a three-drawer desk with a facing bookcase. All drawers are locked: one pencil drawer and two big drawers. Designed by Nitai Panchari, it is made with maple, ash, oak, cherry or wenge wood veneer and has a glass tabletop. Bespoke designs are also available using alternative glass dimensions, colours and woods.

### Eborcraft

One of the latest projects commissioned from Eborcraft is a boardroom table, seen here, with a dramatic illuminated panel. The illumination consists of LED lighting set beneath a frosted glass panel with a number of options of wood and chrome, conical, cylindrical and panelled designs. Many of the tables in the new Oracle range are designed to accommodate wire management accessories, including a monitor lift and power management module for use in boardroom presentations.
